

Seat Belt for Forklifts

Seat Belts for Forklift - Described in the Regulation guidelines are the use of operative restraints and seatbelts on forklifts. It states that the liability falls on the employers' to be able to make certain that every machinery, piece of equipment and device is utilized correctly used in accordance to the directions of the maker.

Rough Terrain lift trucks should meet the regulations of ANSI Standard ASME B56.6-1992 with regards to their maintenance, inspection, fabrication, use and design.

Mobile equipment like for example side boom tractors together with a Rollover Protective Structure (ROPS), must contain seat belts which meet the Society of Automotive Engineers safety requirements; Society of Automotive Engineers Standard J386 JUN93, Operator Restraint System for Off-Road Work Machines. If any mobile machine includes seat belts required by law, the driver and subsequent passengers must make sure they use the belts every time the vehicle is in motion or engaged in operation since this can cause the machine to become unsteady and thus, not safe.

If a seat belt or various operator restraint is required on a forklift.

While operating a lift truck, the seat belt requirements will depend on a number of factors. Contributing factors to this determination may include whether or not the lift truck is outfitted with a Rollover Protective Structure, the kind of lift truck itself and the year the lift truck was actually made. The manufacturer's directions and the requirements of the applicable standard are referenced in the Regulation.

With regards to powered industrial lift trucks, ANSI Standard ASME B56.1-1993 refers to a driver restraint device, enclosure or system. An operator restraint device, enclosure or system is intended so as to help the operator in lowering the probability of entrapment of the head and/or torso between the truck and the ground in the event of a tip over. The system or restraint device could comprise a seat belt, although a seat belt is not essentially a part of such equipment or system.
